Zhuoya Wang qqplot

2. What was your overall experience with the project? Do you feel like it was a valuable learning experience? Were there any problems?

I am mainly responsible for the Shiny app. I think it's a good experience. I learned a lot, especially about how to use the Shiny app.

3. Did all members of your group contribute evenly? Please explain.

Yes, our contributions are equal. Although we are not responsible for the same parts, the content is not the same. But we all think we did what we do best. It makes us feel like we're equal

4. If you had to give yourself a grade (A-F) on this project, what would your grade be? Please explain.

I would probably give us an A- because our upfront preparation was good. However, in terms of actual performance and during the speech, the time was a little out of control due to tension.

5. Do you have any other questions or concerns?

I might be wondering how I will remember what I learned this semester and this project
